

| 2/20/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
|-----------|------------------|---|--|
| Abhay | No | I completed the main success case and started working on tests for authentication. | I am going to make designs for internal components and start implementing the code for authentication. |
| Anh | No | finalized code to be submitted for team review | start LLD on Service Mgmt. |
| Aster | No | I finished making Document Storage - Search success cases LLD designs. | I have a planned day off |
| David | No | I updated account recovery code and made unit tests. I also started but was unable to merge it with others web app. | I will do the success case of DIY Manager to add other DIY Projects to a DIY Dashboard containing their projects. I also will assist in Sprint Planning. |
| Sierra | Yes | I completed my backend and frontend separately and attempted to connect them using fetch ajax calls. | I will try to get my backend to accept and insert user input by fixing the javascript and UserController files. |

| 2/21/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
|-----------|------------------|--|---|
| Abhay | No | I started to implement the authentication tests and code. Which I couldn't because I couldn't figure out how to use controllers. | I am going to spend my time today to learn about controllers, CORS, and frontend. |
| Anh | No | Starting LLD on Service Mgmt. | Continuing LLD on Service Mgmt. |
| Aster | No | I had my planned day off. | I have started to design the low level design for the first failure case of Document Storage - Search. |
| David | No | I made the success case for DIY manager Dashboard that also allow to add other people projects to their own. | I will do the design of DIY Manager for a user to create a new DIY Project that would be able to be shared with others and assist Sierra in updating the Sprint plan. |
| Sierra | Yes | I edited my javascript and usercontroller but have not yet fixed the problem. | I will update sprint planning for sprint 4, edit the backlog with internal and client dates and estimated hours. |

| 2/22/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
|-----------|------------------|---|--|
| Abhay | No | Researched how to set up a ASP.NET project, configure CORS and use fetch from a webpage hosted on http-server | I am going to spend some time on changing the LLD from the new research. |
| Anh | No | Continuing LLD on Service Mgmt. | Continuing LLD on Service Mgmt. |
| Aster | No | I started on the LLD of Document Storage - Search failure case | I have my planned day off. |
| David | No | I created the DIY project creation LLD success case and help organize scrum documents. | I will start to make the failure cases for DIY Manager starting with what happens when a user tries to create a new DIY project without filling out all required info. |
| Sierra | Yes/No | I updated scrum documents backlog, parking lot, and sprint planning 4. I am still working on getting my user input inserted into my database. | I am going to finish updating the backlog and parking lot documents and finish a rough draft of Request Management LLD. |

| 2/23/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
|-----------|------------------|---|--|
| Abhay | No | Changed the low level design to use http methodology and made sub-designs for some method which helped me shorten the overall low level design. | I am going to implement authentication, by completing the setup of the login controller and introducing an AuthManager to take care of the business logic.. |
| Anh | No | Continuing LLD on Service Mgmt. | Continuing LLD on Service Mgmt. |
| Aster | No | I had day off. | I will continue off on the failure case of LLD Document Storage - Search started two days ago. |
| David | Yes | I started to make failure cases but was confused on how to show it since most errors other than database errors can be checked in client side like and manager level. | I will continue to try to make fixes on how to better show failure LLD for DIY Manager to show failure cases of leaving input blank or inputting invalid characters. |
| Sierra | Yes/No | I finished updating the backlog and parking lot scrum docs and worked on my rough draft Request Management LLD. | I will finish my Request Management LLD rough draft. |

| 2/24/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
|-----------|------------------|--|--|
| Abhay | No | I completed the setup of the login controller and introducing an AuthManager to take care of the buissness logic. And added an SMTP server to send otp to users email. | Start research on making an design for Property Evaluation. |
| Anh | No | Continuing LLD on Service Mgmt. | Continuing LLD on Service Mgmt. |
| Aster | No | I worked on the failure case for LLD Document Storage | I will work on the 3 remaining failure cases for LLD Document Storage |
| David | No | I made some changes to my failure LLD on how front end would react to invalid input. | I will try to make even more failure cases for things that can go wrong for LLD for DIY Manager. |
| Sierra | Yes | Finished my LLD rough draft | Created a LLD for Request Management and request feedback from the professor |
| | | | |
| 2/25/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
| Abhay | No | Researched popular ways of doing property evaluation, which was done with linear regression in my research. Watched videos on how to do liner regression with .net. | Implement an linear regression model in .net, to understand the structure. |
| Anh | No | Continuing LLD on Service Mgmt. | Continuing LLD on Service Mgmt. |
| Aster | No | I worked on 2 Document Storage - Search failure cases of LLD Document Storage | I will work on the last failure case and last success case of Document Storage - Search LLD |
| David | Yes | It is a problem finding new ways that the DIY Manager can go wrong so I only made one more LLD failure case. | I will rework my success case because there is a flaw I noticed. I will also try to work on the front end design of DIY manager uploading a new DIY. |
| Sierra | No | Finshed my LLD rough draft and got feedback from the professor about how to do multiple SQL queries in one request | This is my scheduled Day off |
| | | | |
| 2/26/2023 | Are you Blocked? | What did you do yesterday? | What are you going to do today? |
| Abhay | No | Implemented an linear regression model in .net to do property evaluation. | Research on how to turn an linear regression model into an .net webapi. Using videos and online blogs. |
| Anh | No | Continuing LLD on Service Mgmt. | Revising LLD for Service Mgmt. |
| Aster | No | I worked on the last failure case and fixed the older success case for LLD Document Storage - Search | I will work on the last success case for LLD Document Storage - Search |
| David | No | I was able to fix the flaw and then started to reorganize my LLD to be less messy. I then started to work on the front end design for DIY manager. | I will make the front end design for DIY Manager to upload a new DIY project. |
| Sierra | No | This was my scheduled Day Off | I am going to finalize my request management LLD and update the sprint planning. |
