

3/6/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Finished an draft of the Peer Review for Sierra.	I have to finish the Testing Recommendation for the Peer Review.
Anh	no	Worked on Peer Review for David.	Day off
Aster	No	I finished working on Document Storage Upload LLD	I have planned day off.
David	No	I finished the first draft of the peer review for Anh's service management.	I will update the peer review to make sure it follows the grading standard the professor laid out. I need to remove unrelated suggestions and add more details.
Sierra	No	Finished the peer review for property evaluation.	Sprint plan and start updating my web app registration code.
3/7/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Finished the Peer Review, and started looking for an alternative dataset for implementing Property Evaluation.	Researching for datasets to implement Property Evaluation.
Anh	no	Day Off	Work on Service Request
Aster	No	I had planned day off	I will start on working Document Storage Sign LLD success case.
David	No	I fix some of the peer review issues that I needed to change due to new grading standard being shown but I did not finish yet.	I will finish the final draft of Anh's peer review and set it to be auto sent tomorrow at 8:00am.
Sierra	No	Sprint planned and started updating the backend implementation of registration	Finish updating registration, add authentication and logging to my web app and update abhays peer review.
3/8/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Could not find appropriate dataset for Property Evaluation feature, bookmarked alternative ways to create an database usable for the feature.	Create Tests for the backend, and research how to create tests for the Frontend.
Anh	no	Work on Service Request	Day off
Aster	No	I have a scratch start on Document Storage Sign LLD success case	I have planned day off
David	No	I finished up the final draft of Anh's peer review and then I set it up to auto send at 8am today.	I will go back to working on the code for DIY upload backend on the manager layer following the designs I made.
Sierra	No	Finsih abhays peer review for property evaluation and logging, authentication and update registration on my web app.	Test registration, logging and authentication together and hopefully update the backlog.
3/9/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Created some unit tests for the backend, and did some research on integration tests, and frontend testing.	I will doing furthur research on frontend and integration testing.
Anh	no	Day Off	Work on Service Request
Aster	no	I had a day off	I will work on Document Storage Sign Success case LLD
David	Yes	I worked on the backend code but got stuck on the controller calling the manager layer as it is not doing exactly what I wanted but there are no error codes currently.	I will debug and check my logic and then continue with following the flow design of DIY Upload backend.
Sierra	No	I test registration and logging but need to fix code errors. Created a manger and controller for user management.	I will update the registartion LLD and at a frontend LLD, test registration and logging, and update the HTML for the login and sign up page

3/10/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	I created all the backend tests from peer review and additional ones I deemed necessary.	Research how to implement frontend testing.
Anh	No	Work on Service Request	Debug Service Request
Aster	yes	I researched on how to work the signing for Document Storage Sign user story.	I will finish the Document Storage Sign LLD success case and start on 1 failure case.
David	No	I worked on the backend of DIY Upload manager.	I will work on the database and the data access layer of the DIY Manager Upload feature.
Sierra	Yes	I completed the frontend and backend registration LLD.I tested registration however the data is not inserting into the database. I also get a status error code 500 when I run the backend webAPP	I am going to research the error and try to get the backend and frontend running together and then start on request management.
3/11/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Watched videos on how to use Nightwatch, Cypress and Mocha for frontend testing. I implemented some basic unit tests in Nightwatch.	Finsih the frontend tests, and create the frontend for Property Evaluation.
Anh	No	Debug Service Request	Test Service Request
Aster	no	I finished Document Storage Sign LLD success case.	I will work on Document Storage Sign LLD failure cases.
David	No	I worked on the database and the data access later of the DIY Manager Feature.	I will start to work on the frontend code of DIY Manager Upload feature.
Sierra	Yes	I researched and fixed the error, and I got frontend and backend running together.	I fixed the error and backend is working however 1/7 test is failing so i will trouble shoot this. I will then test front end and backend together and then start on request management backend
3/12/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	no	Created the frontend for Property Evaluation, with the peer review in mind. And started with backend with the controller, and manager completed.	Fix the errors with Controller, Manager, and implement rest of the layers. And fix error with the help with tests.
Anh	No	Test Service Request	Push final code for Service Request
Aster	no	I finished one Document Storage Sign LLD failure case.	I will try to finish two Document Storage Sign LLD failure cases.
David	No	I worked on the frontend code of DIY Manager Upload feature.	I will begin testing for my feature.
Sierra	No	I was able to pass all registartion test and test frontemd and backend together for registration and request management.	Update the frontend HTML and JS to include request management and continue to test.
