3/27/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	I created integration test for the frontend, and did not need any refactoring.	I am going to add some quality of life features, where it checks if the user is already logged in, and logout.
Anh	No	Work on backend code for service management	day off
Aster	No	I fixed some of Document Storage Search LLD's.	day off
David	Yes	I was stuck on fixing issues that I recently fixed that was problems with the database.	I will readjust the front end code for DIY details and for sort to be like the design and to add a number of how many is found when searched.
Sierra	No	I fixed the error I was getting and moved on to dynamically making a table and adding the data from the database by iterating through the response.	I will complete dynamically creating a table and add the table data from the database because I ran into error it took longer than I thought.

3/28/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Implemeneted IsLoggedIn and Logout in the Authentication controller, and added them to the frontend.	Sprint planning today and start designing the assigned user stories for Maintenance and Renovation.
Anh	No	day off	Out for holiday
Aster	No	Day-Off	I will continue fixing Document Storage Search LLD
David	No	I was only able to work on the front end code for DIY details and did not get to the sorting.	I will make fixes to the scrum document according to the professor's last email and then work on the front end code for DIY Sorting if I have time.
Sierra	No	I was able to complete creating a table and dynamically add the table data from the database and add functionality to the accept and decline buttons	I am going to make success cases for service Management and fix frontend the accept and decline functuonality for request management.

3/29/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Completed sprint planning and started with Design for price chart for services and projects.	Complete first LLD draft price chart for services and projects.
Anh	No	Unable to work.	day off
Aster	No	I continued fixing Document Storage Search LLD	Day-Off
David	Yes	I was stuck on fixing scrum documents as I was waiting for the professor's response to some questions. I ended up working on the front end code for DIY Sort.	I will work on adding the authentication and authorization code into my DIY Manager.
Sierra	No	I fixed the accept and decline functionality and added the frontend for emailing an admin when a user comes across a problem. I also created success cases for service management and backend. However I run into a error when I rate a service.	I am going to add the email notification functionalityto the back and frontend and update the scrum documents. Then hopefully start creating an end to end test.

3/30/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Did some research for data to implement price chart.	Help teammate integrate their frontend.
Anh	No	day off	Out for holiday; thought I was able to put some time to work, but was unable to.
Aster	No	Day-Off	Emergency day off due to unexpected personal incident
David	No	I was able to check the authorization of the user before they can use DIY Manager.	I will work on the Dashboard code to fix all the errors or things done incorrectly.
Sierra	Yes	I was not able to create email notificiations functionality but I did update the scrum documents with the team.	I am going to make a end to end test and add service management to the frontend

3/31/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Helped sierra inntegrate her partial for request managment, a not authorized partial with her feature, and help troubleshoot her frontend tests.	Change the code according to the feedback from code review, and research dependecy injection.
Anh	No	Was not able to work.	day off
Aster	No	Day-Off	I will finish fixing Document Storage Search LLD and work on Document Upload LLD
David	No	I was able to get a little code but I didn't have much time to work on it.	I will continue with working on the DIY Dashboard to look like the design and add more details about the items in the dashboard.
Sierra	Yes	I added service managemnt to the frontend however not with full functionality just enough for request management and started on an end to end test however i didnt finish the test.	I am going to update the scrum documents and finish the frontend end to end test for request management.

4/1/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	Worked on changing the code according to the feedback from code review, and researched dependecy injection.	I have decided to take day off because of limited capacity, and some other assignments for other class.
Anh	No	day off	Made a controller for service management frequency change request.
Aster		I finished fixing Document Storage Search LLD and worked on Document Upload LLD	I will finish Document Storage Upload LLD
David	No	I was able to get some parts working like showing a list number but I had little time so it was not completed.	I will not be able to work today.
Sierra	Yes	I was not able to finish the front end to end test partly becuase I was not able to run it and I am not sure why nightwatch did not work for me.	Add the suggestions from the code review and start on Usage Analysis Dashboard

4/2/2023	Are you Blocked?	What did you do yesterday?	What are you going to do today?
Abhay	No	DAY-OFF	DAY-OFF
Anh	No	Made a controller for service management frequency change request.	Work on scrum documents
Aster	no	I finished fixing Document Storage Upload LLD	I will fix the Document Storage Sign LLD
David	No	I was not able to work yesterday.	I will try to finalize and push out a completed DIY Manager. If I have extra time I will start on Crime Map Designs for the crime map.
Sierra	no	I was not able to get much work done because I had to finish work from other classes but I was able to fix some of the suggestion I got from the code review	I am going to start on my next feature which is Usage Analysis Board and start gathering information and make a LLD.
